

Agent Email Template | Fixed Benefits Medical Coverage

Subject: A simple way to help cover everyday medical costs

Hi [First name],

Part of my job is making sure you know about every option that can help you manage healthcare costs.

One option worth a look is a fixed benefit medical plan. It's not a replacement for your major medical coverage, but it works alongside it, paying you a set cash benefit for covered services like doctor visits, urgent care, hospital stays and lab work.

There's no deductible to meet and no network restrictions, so you can see any doctor you choose.

It tends to be a good fit if you're on a high-deductible health plan or just want a more predictable way to handle costs your insurance doesn't fully absorb.

If you'd like to walk through whether it makes sense for you, I'm happy to help. You can also view plans using my agent link: [Your selling link]

I look forward to connecting!
