Understanding your benefits

Annual Maximum

The total dollar amount your plan will pay for covered dental services each year—Spirit offers up to \$5,000.

PPO (Preferred Provider Organization)

A type of plan that lets you choose from thousands of trusted dentists nationwide through the Ameritas PPO network. You'll typically save 25–50% off standard rates when you visit an in-network provider.

UCR (Usual, Customary & Reasonable)

Spirit Dental's Flex plans use UCR to ensure you receive fair reimbursement (what 8 of 10 dentists charge in your area) when you see a dentist outside the PPO network. With Spirit Flex plans, you'll also receive those PPO savings when visiting an in-network dentist as well.

No Waiting Periods

Your coverage begins right away, even for major dental work. With next-day effective dates, you can schedule care as early as tomorrow.

Lifetime Deductible

This is the cost you'll pay before receiving benefits. You'll only pay your deductible once (lifetime), unlike other dental plans that have you pay a reoccurring deductible yearly.

Cleanings

Preventive cleanings are essential, which is why Spirit Dental covers up to three cleanings per year at 100%, helping you maintain strong preventive care and avoid larger dental issues down the road.
